

TDB 123 - Technical Specifications

Agriculture | Bias | R-1 | TT/TL | 5 Years

Salient Features & Benefits

Tractor Drive Bias 123, specially designed for agricultural applications.

Unbeatable Traction

- Unique 23 Degree Lug Design.
- Excellent Ground contact provides Excellent traction in operation.

Safeguards the tyre against failures

- Reinforced casing.
- Resistance to impact, mechanical failure.

Durability

- Special Tread compound
- Ensures Longer Life.

Machineries

Tractor

Standard: International Standards

Dimensions International Standards

ECE	E11*106R00/21*10918*00
Tyre Size	20.8-42
Rec Rim	18
Alternate Rim	-
PR & LI/SI	14PR 161 A8
Section Width (mm)	528
Overall Diameter (mm)	1950
Static Load Radius (mm)	898
Rolling Circumference (mm)	5832
Type	TL

Note: Section Width And Overall Diameter Are Unloaded Dimensions.

Field operation with High Torque

km/h / bar	2.3
10	4950

Field operation with Low Torque

km/h / bar	2.3
10	6940
20	5690

Road Operation; Not high and Sustained Torque

km/h / bar	2.3
10	6940
20	5690
30	4950
40	4625
Static	10640
